

The symbolism

A symbol is stronger than a thousand words

Distinctive, always the same, yet different for each woman, this magical timepiece discreetly reflects the personal story of the woman who wears it.

At the zenith,
12 o'clock,
is the spiral,
symbolic of water,
the moon,
femininity

The stone at
6 o'clock represents
the south, the sun,
and radiates the
masculine energy

At the center,
is the diamond
shape, the univer-
sal symbol of life
and prosperity

The infinity knot
links the feminine
and the masculine
for all eternity
